

Five Counties Children’s Centre Multi-Year Accessibility Plan

January 2015 – December 2019 Rev. 1 2016

Statement of Commitment to Accessibility:

Five Counties Children’s Centre is committed to providing a barrier-free environment for our clients, their families, visitors, employees, students, volunteers, job applicants, suppliers and other stakeholders who enter our premises or access our information. As an organization we respect and uphold the requirements set forth under the Accessibility of Ontarians with Disabilities Act (2005), Customer Service Standard and the Integrated Accessibility Standards Regulation for Information and Communications, Employment and eventually, the Built Environment.

Five Counties Children’s Centre is dedicated to supporting children and youth with physical, developmental and communication needs. Given the nature of the children and youth that we serve, accessibility is incorporated into our planning, program development and our model of services for clients, our employees and our families.

Ontario has enacted legislation on accessibility called The Accessibility for Ontarians with Disability Act, 2005 (AODA, 2005). The Act is a follow up to the Ontarians with Disabilities Act, 2001 (ODA, 2001). The goal is for Ontario to be fully accessible by 2025. In order to accomplish this, a series of standards are in process for successful implementation according to the required timelines. The following four standards apply to Five Counties Children’s Centre:

- **Accessible Customer Service Standard** - establish policies, practices and procedures on providing goods and services to people with disabilities.
- **Accessible Information and Communication Standard** – Address the removal of barriers in access to information. The standards include information being provided in person, through print, electronic, website or other form of media.
- **Accessible Employment Standard** – addresses paid employment practices relating to employee-employer relationship, which includes recruitment, retention and selection policies and practices.
- **Accessible Built Environment Standard** – addresses barriers in public spaces and buildings. The standard for public spaces will only apply to new construction and planned redevelopment.

The Customer Service Standard became law as of January 1, 2012 and FCCC has complied with the minimum requirements of the regulations.

This plan is intended to continue to move Five Counties Children’s Centre towards its vision of accessibility outlining realistic initiatives and meeting mandatory requirements of the Integrated Accessibility Standards Regulation.

FCCC will provide the opportunity for all clients, caregivers, staff, students, volunteers, vendors and other stakeholders to identify needs related to disabilities and that those needs are accommodated in a manner that support the dignity of the individual. This will be reflected by:

- People with disabilities being able to enter FCCC premises and reach their destinations without encountering barriers
- People with disabilities receiving the services they require without encountering barriers
- People with disabilities working without encountering barriers
- Accessibility being a thread that is woven throughout all policies and practices
- Accessibility being accepted as everyone’s responsibility.

IDENTIFICATION OF BARRIERS

Aim:

This section describes the measures to identify, remove and prevent barriers, including but not limited to people with disabilities, who work in or use the Centre, including clients, and their family members, staff, students, volunteers and members of the community. The accessibility plan addresses architectural, environmental, attitudinal, financial, employment, communication, transportation and community integration barriers that may be experienced.

The 2015 – 2019 Multi-Year Accessibility Plan details accessibility issues which need to be addressed, outlines the communication plan for disseminating the plan and summarizes the next steps to be followed in furthering our accessibility planning.

Objectives:

This plan:

- Describes the process by which Five Counties Children's Centre identifies potential barriers within the facility.
- Describes the measures Five Counties Children's Centre will take in the coming year to identify, remove and prevent barriers, including but not limited to people with disabilities.
- Describes how Five Counties Children's Centre will make this Accessibility Plan available to the public

Responsibility:

The Accessibility Committee is responsible for developing and monitoring accessibility within the Centre.

The Accessibility Committee:

1. Identifies barriers that will be removed or prevented, seeking input from employees, persons served and the community.
2. Reviews and lists policies and programs, practices and services that cause or may cause barriers including but not limited to people with disabilities.
3. Describes how these barriers will be removed or prevented.
4. Prepares a plan and makes the plan available to the public.
